## Fantastic Resource - Online Safety Hub

Dear Parents and Carers,

We are delighted to share a fantastic resource with you to help navigate the ever-changing digital world: the **Greenshaw Learning Trust Online Safety Hub**. As part of the Greenshaw Learning Trust family, Tyndale families have exclusive access to this portal. You can find it here:

**Online Safety Hub**  
Trusted digital safety advice for caregivers

<https://greenshawlearningtrust.onlinesafetyhub.uk/>

### *What can you find on the website?*

The Hub is a "one-stop shop" designed to help keep your children safe online. It includes:

- App & Game Reviews: Unbiased, expert guides on the latest trending apps (like TikTok, Roblox, and Snapchat), explaining what they are, the potential risks, and how to set up safety controls.
- Safety Guides: Step-by-step instructions on how to set up parental controls on devices, home Wi-Fi, and gaming consoles.
- Expert Advice: Articles and videos from leading online safety experts covering topics such as screen time, cyberbullying, and social media pressure.
- Conversation Starters: Practical tips on how to talk to your children about their digital lives in a positive and supportive way.

### *Why is it great to access?*

We know that keeping up with new technology can feel overwhelming. This website is great because it is updated constantly as new apps and trends emerge. Instead of searching the internet for answers, you can rely on this hub for evidence-based, practical information that is specific to the age of your children.

Whether you want to know if a new game is appropriate for your child, or you need help blocking inappropriate content on a tablet, the answers are all in one place. By using these tools, we can work together to ensure our children become confident, responsible, and safe digital citizens.
